BW Query Naming Conventions:

In an effort to harmonize the naming conventions of queries in the BW environment the following standard is defined. The standard will be augmented as new development warrants.

Description	Alw ays Z	Infoprovider Type	IP Designator	Underscore	Query Identifier (ex. PRRPT27, BERPT2) - up to 10 characters										Optional Underscore	Optional - Take the first letter of each significant w ord. In this example, "Expring Funds Balance"									ch	Optional Underscore	Optional (Unique Identifier)
Example	Z	M	N		В	E	R	P	T	2					_	E	F	В									S T
Default Values		M - Multiprovider	N - ZX01ANASA	- 60		Г			П																		FY - Fiscal Year
		C - Cube	R- ZX01AFIML																								ITD - Inception to Date
8		O - ODS	C - COCD /CMM	350				3 3				3 (5)				5 (5) 5 (0)				3 30	7 8 5 3			3 (5)			FP - Fiscal Period
		D - Master Data	A - ARSV	100				3 5				8 S 9 S				3 50	75 75 70 75 70 75			8 - 18 8 - 18	7 8 2 9				ž 8		CP - Cost Pool
3		0.5	S - ASORV	- 80				8.				11				80	3 - 3			15 85	3 - 3			E 85	- 1		ST - ST5 Version
			O - COO	195								9				100											
			P - FIAP - Cube	100																							
			P - Multi - Purchasing	122					П			, ,,,,				V 223				2 32				2 .20			
			R-FAR			Г																					
			T - ZTBWACCT					A 10				A 120				A 153				A 12				A 55			
		27	U - ZP01AOHD			П		A				A 120				A 100				A 170				A 555			
			L - ZL01AOMD																								
		100	Q - ZL02AOMD	- 10			П									. 10								6 80			
		8	C - CMM	150				3 3				5 (5) 5 (5)				6 (6) 6 (5)	ž 6				Z 6			3 S	5 6		
		DR -0	D - SGL Detail	100								() ()				E 80	3 3 2 9			1 80 2 52	0 18 3 9			E 80	5 9		
			I - APLI	150		П										- 53				7 19				- 93			
			B - ZH01HMRPA	R	Р	Α	200									F 55											
			H - ZH01AMEHS, ZH01AMHIR	I	R	(<u>(223)</u>										9 22				7 2				7 1	\Box		
			E - ZH01AMEM													. 101									□		
			T - ZH01AMETN			Г																			T		
			X - IAM			П																			ヿ		
		0 - Modified B	usiness Content queries																						ヿ		

Summary of BW query naming standards:

- 1. Include the letters "RPT" in the full report id in the tech name i.e. BERPT55, not BE55
- 2. IP Type add "O" for ODs, and "D" for Master Data
- 3. We will not create Multiproviders for ODS's right now; will need to address this in the future.
- 4. We will not create multiproviders for the AP, AR, or Cost over Obs cubes at this time; will need to address in the future.
- 5. IP Designator the letters will be assigned as needed; some will not be mnemonic, such as using "Q" for ZL02AOMD. The letter "C" will apply to all COCD Cubes. So the single letter "C" is used whether it is ZP01AOCOCD, ZPCOCDCOM, or ZPCOCDCOC Similarly, we will use the single letter "A" for all ARSV Cubes.
- 6. In some cases, we will use as second qualifier after the query name (like CMRPT22) which will be the first letters of the significant words, for example using "EFB_" for "Expiring Funds Balance".
- 7. The query description will include the report ID, like BERPT55 if it exists in any of the 4 places that contain the report description (Role Menu, Spec file name, Spec cover Page, Spec report title).
- 8. Likewise, the description will include FY messages like "FY07 and forward" if it exists in any of the 4 places listed above.
- 9. Our goal is that the query "save as description" will match the Role Menu Description.
